PROCEDURE

1. Applicants for permits to perform work in or to occupy Town street right-of-way (ROW) with utilities, or holders of granted franchise rights contemplating work upon, along, over, or under any Town street, road, avenue, or alley on property in the Town, shall first file with the Town Administrator an application to do such work.
2. Applicant will be responsible for understanding and following all specifications and conditions agreed upon.
3. Such applications shall be accompanied by a drawing. Drawings shall be to a working scale, showing position and location of work, names or numbers and width of streets, roads, etc., showing their location in the plat, or subdivision, showing the relative position of such work to existing utilities, constructed, laid, installed, or erected within such streets or right of way.
4. The actual location of the work to be done under this permit must be flagged or marked, its depth below or above surface or grade of any Town structure, street, road, avenue, or alley, and shall be approved by the Town Administrator for any special requirements before any work shall be done by the applicant.
5. The applicant shall specify the type of construction by submitting plans showing the class of material and the manner in which the work is to be accomplished. Signing, barricades and traffic control in the vicinity of the work shall strictly conform to provisions of the "Manual on Uniform Traffic Control Devices for Streets and Highways" and the "Manual for Emergency Traffic Control for Protection of Men & Equipment". The applicant shall pay to the Town all costs of expenses incurred in the examination, inspection, and supervision of such work resulting from the granting of said permits.

STANDARDS AND SPECIFICATIONS FOR UTILITY INSTALLATION

1. Utilities shall be installed in accordance with Town specifications.
2. It will be the applicant's responsibility to contact all utilities in the area of the proposed street crossing to insure that no existing underground utilities will be disturbed when the work is performed.
3. Utility crossings shall be as near right angles to the street as practicable.
4. All utilities crossing the street shall be installed with PVC Schedule 40 plastic or equivalent conduit.
5. A minimum of 24 hours notice shall be given to the Street Department.
6. The traffic control required for the crossing shall be provided by the contractor and approved by the Town Administrator.
7. All blacktop removal shall require vertical cuts of the existing surface.
8. All trenches shall be bedded and backfilled with select material in 8" lifts by the contractor and compacted by a mechanical tamper.
9. Unsuitable backfill material (as determined by the Town) shall not be permitted.
10. The top 6" of the crossing shall be crushed rock.
11. The roadway and roadsides affected by the crossing shall be restored to a neat and orderly condition.
12. Pavement cuts shall be patched by the contractor within 30 days. The contractor shall be responsible for maintaining the traveled way each day until such time as the patching has been accepted by the Town.

PUBLIC WORKS CONSIDERATIONS
Street and Storm Drainage Standards – 1997 Edition – Section 3

3. PUBLIC WORKS CONSIDERATIONS

3A. BONDING

3A.01 General

Bonds or other allowable securities may be required by the Town to guarantee the performance of or maintenance of required work. The type and amount of security shall be at the discretion of the Town. Types of securities include but are not limited to a bond with a surety qualified to do a bonding business in this state, a cash deposit, an assigned account, or a letter of credit. Standard forms for an assigned account and letter of credit are provided in Appendix A.

3A.02 Right-of-Way Bonding Requirements

Developers performing work in public rights-of-way shall be prepared to satisfy the following two bonding requirements.

A Performance Bond.

The Bond shall be approved as to surety by the Town, which bond shall be conditioned upon faithful completion of that portion of the work performed pursuant to the permit which will require completion by the Town should the permittee or his contractor default. The amount of such bond shall be equal to 150 percent of the improvements.

B Maintenance Bond.

Prior to final approval, the permittee or the contractor for the permittee shall post with the Town a maintenance bond for the guarantee of the public works improvements in an amount equal to 20 percent of the cost of the improvements for a period of one year after the completed job is accepted by the Town. Release of bond will occur one year from the date of Town acceptance if all maintenance has been accepted by the Town.

3B. LIABILITY INSURANCE

Any applicant receiving a permit under the terms of the Street and Storm Drainage Standards shall provide to the Town a satisfactory proof of the existence of the comprehensive liability insurance policy, in an amount and form determined by the Town Attorney, but in no event providing coverage less than the Town's coverage. The Town shall further be provided with an endorsement to such policy naming the Town as an additional insured.

Applicant Acknowledges Above _____

BILL OF SALE

**SEWER SYSTEM
TOWN OF FRIDAY HARBOR**

San Juan County, Washington

KNOW ALL PERSONS BY THESE PRESENTS, that for and in consideration of the mutual benefit of the parties; _____, Grantor, does hereby grant, bargain, and sell to the TOWN OF FRIDAY HARBOR, San Juan County, Washington, Grantee, the following described improvements situated in San Juan County, Washington:

A sanitary system consisting of:

SEWER MAINS			
LOCATION	FROM	TO	SIZE

Including approximately _____linear feet of piping plus taps, cleanouts, and all other appurtenances from the Grantor’s property to the sewer main described above, to have and to hold the same to the said Grantee, its successors, and assigns forever.

The undersigned hereby covenants that it is the lawful owner of said property; that the same is free from all encumbrances; that all bills for labor and material have been paid; that it has the right to sell the same as aforesaid, that it will warrant and defend the same against the lawful claims and demands of all persons holding Grantee harmless from all claims.

This Bill of Sale is given in consideration of the agreement of the Grantee, for itself, its successors and assigns to incorporate said domestic sewerage system into its utility system and to maintain them as provided in the applicable Town ordinances.

IN WITNESS WHEREOF, the undersigned has caused this instrument to be executed by its proper officers, who are duly authorized, on this _____ day of _____, 20____.
